

One day while I was looking out my window I discovered a new planet. I jumped in my spaceship and flew up to it. When I got there it was all water and ice. I got into my boat and went exploring.

I saw a polar bear fall into the water. Along came a Killer Whale , she thought it was a fish! The whale jumped into the air and saw it was a polar bear. The bear saw the whale and thought it would make a good lunch to eat! I saw the whale and came close to her in my boat and told her there was a polar bear that wants to eat her. The whale swam very fast the other way to hide. The bear was angry at me and started to chase me! The whale came to my rescue with some friends and scared the bear away. I sailed back to my spaceship , jumped in and flew home.
